# Overview

PicoToken is here to set a premium standard to the crypto community. By developing a token that generates income for all holders. By expanding to multiple blockchains PICO will use the generated volume to create a portfolio with a system that allows the community to be involved in. Community involvement will play a huge role in the direction of Pico.

By prioritizing development for Pico, as well as increasing liquidity. This allows investors to be involved in a crypto currency asset that is liquefiable. The future of crypto comes closer to being regulated. Many projects do not provide confidence, further pushing a negative connotation. Transparency, Corporate Development, DeFi Development and Liquidation is the bases premium that Pico provides.

# The Problem

**Transparency** is an important concern for Pico as an organization, unlike the vast majority of other projects on the market

**Utility** is another area of importance for the Pico Team. We believe it is of utmost importance to provide information to our investors as well as keep everyone updated on our projects through regular publications

**There is a distinct and clear disconnect between the cryptoverse and the real world.** The Pico Team is seeking to bridge the gap between these two worlds, and allow our token to exist as much more than just another “crypto project.” We seek to elevate our token to something that has utility in everyday life, and allow our project to be respected as a member of both virtual business and traditional business.

# The Solution

**A Expanding Platform** where users can elaborate with the team, gain passive income, interact and utilize products.

## Hybrid Wallet

Be able to toggle between online and offline  
Access all blockchains in one location

## Multi-Chain Support

One stop shop, too interchangeably switch  
between any blockchain

## Portfolio Dapp

Access assets attained, profit generated,  
and redistributions back into the ecosystem

# Market Size

**The global blockchain market** is projected to grow from \$4.68 billion in 2021 to \$104.19 billion in 2028 at a CAGR of 55.8% in forecast period, 2021-2028...
